CLASS

The protection class indicated to what extent the luminaire is protected against electric shock. All luminaires in this catalogue are at least protected with the protection class I – a higher class is specified in the information box of the respective luminaire.

CLASS I
Protective earthing

CLASS II
Protective Insulation

CLASS III
Protective Low Voltage

IP PROTECTION

The protection rating ensures the operational safety of luminaires. The first number specifies the extent of the protection against the ingress of foreign bodies, the second number identifies the humidity protection grade.
