2026 Collection

Lighting for everyday life

The Nordlux 2026 collection is shaped by a clear focus: lighting that feels right in design, function and everyday life.

Nordlux Decorative turns trends into accessible designs using carefully selected colours and materials, always with strong value for money. The collection includes a wide range of elegant table lamps and new families in vibrant colours and textured fabrics.

Our Functional category is designed to make everyday life easier, combining smart features, intuitive technology and user-friendly installation - as seen in our new range of decorative wall and ceiling lamps.

In our Outdoor range, we continue our focus on durable materials and proven technology, alongside another partnership with renowned Jacob Jensen Design based on innovative ideas and modern lighting technology.

We are proud to present a new collection of products you want to bring home.

Functional

*Our full range of functional lighting
combines beautiful design with the newest
LED technology for your bathroom, hallway,
garage and more.*

Bathe In Light

Bathroom lighting is a category with very specific safety regulations. Wet areas with moisture, steam and flowing water require very strict lighting regulations.

Our "Bathe in Light" concept combines all safety regulations for the different zones in the bathroom with the newest LED technology such as our Moodmaker™ function. Moodmaker™ allows you to shift between functional and relaxing light, for example by switching to a dim night light when visiting the bathroom during the night.

As part of our "Bathe in Light concept", we also have developed products with high colour rendering index (RA/CRI90), providing a natural light that is very close to sunlight. With this light, skin tones and colours are accurately reproduced, which is important when applying makeup and getting ready in the bathroom.

Designed For Seaside

Nature is beautiful - but it can also be rough. Crashing waves, wind, salt and especially sand can be a challenge for your home and your outdoor lighting.

For Nordlux, this beautiful but harsh nature and weather is part of everyday life. We therefore strive to produce lamps created from natural materials which are also resistant and durable, year after year, in relentless weather and nature.

Nordlux offers a **15-year guarantee** on all outdoor lamps in galvanized steel, corten, copper and brass. This guarantee applies to extensive corrosion in the form of holes in the metal caused by rust.

We are also proud to offer an extensive range of painted outdoor lighting in our unique "Designed for Seaside" coating, which has an unprecedented **10-year guarantee** on surface deterioration.

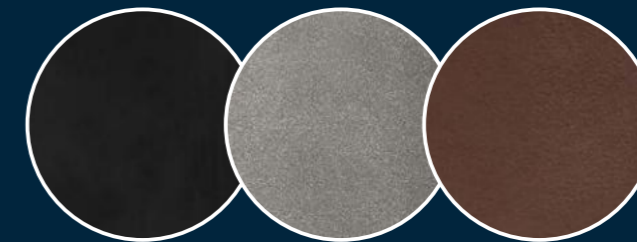

10-year guarantee

We are proud to offer an extensive range of outdoor lighting in our unique "Designed for Seaside" coating, which has an unprecedented 10-year guarantee on surface deterioration.

Find some of our most popular models and our latest designs in a colour that suits your home.

The guarantee covers significant deterioration of a light's surface over time.

15-year guarantee

Our "Designed For Seaside" collection is made from extra durable and natural materials that can withstand even the harshest coastal weather conditions. Over time, exposure to the elements causes the materials to develop a beautiful, darker patina.

Nordlux offers a 15-year guarantee on all outdoor lamps in galvanized steel, copper, corten and brass.

This guarantee applies to extensive corrosion in the form of holes in the metal caused by rust. The guarantee is subject to presentation of receipt.

There is no guarantee on components which have been affected by wear and tear or mistreatment of the lights.

What is FSC™?

We focus on protecting our resources and the environment. This is one of the reasons why we have been FSC certified since 2016. FSC certification is about using trade forest products such as wood and paper from responsible sources, and ensuring clear traceability for the wood – all the way from forest to the finished product in the shop.

Responsible sources refers to local populations, animals and plant life being taken into consideration, that logging is done in an environmentally appropriate way and that the deforested areas are replanted.

The desire and motivation for FSC certification of the products which include wood is a natural continuation and development of our approach to environment and sustainability – and we will continue to demand FSC certified wood for those of our design products that include wood.

We see sustainability as a task involving everyone associated with Nordlux – from the owners, board and management to employees and suppliers.

*FSC™ stands for Forest Stewardship Council™ and is a recognised international non-profit labelling scheme for wood and paper.

FSC certification ensures responsible forest management and improved living conditions for the local population in forests worldwide.
