

NOVA LUCE

The background of the entire page is a solid dark green. Overlaid on this are two large, semi-transparent circles. One circle is a medium green and occupies the left side of the frame. The other is a slightly lighter shade of green and is larger, positioned on the right side and partially overlapping the first circle.

Bollard

Our bollard lights bring a rustic charm to outdoor spaces, blending effortlessly with the natural surroundings.

These lights offer a harmonious balance of functionality and artistic design, providing subtle, inviting illumination for gardens, pathways and patios

Cement

Our cement lighting fixtures bring a touch of industrial chic to any space, combining rugged durability with subtle elegance. Perfect for both modern and rustic spaces, these lights offer a raw, minimalist aesthetic that highlights their solid construction.

Our cement lights blend seamlessly with a variety of styles, adding character and sophistication to your environment.

CLASS	
The protection class indicated to what extent the luminaire is protected against electric shock. All luminaires in this catalogue are at least protected with the protection class I – a higher class is specified in the information box of the respective luminaire.	
	CLASS I Protective earthing
	CLASS II Protective Insulation
	CLASS III Protective Low Voltage
IP PROTECTION	
The protection rating ensures the operational safety of luminaires. The first number specifies the extent of the protection against the ingress of foreign bodies, the second number identifies the humidity protection grade.
