AUSSENLEUCHTEN
OUTDOOR LUMINAIRES
2026

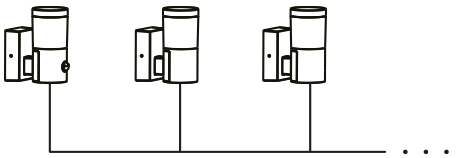

Mehr Komfort, mehr Sicherheit ☒ die neuen Funktionen unserer Außenleuchten.
More convenience, more safety - the new functions of our outdoor lights.

MOTION SENSOR MULTICONTROL

Der integrierte Bewegungssensor der Hauptleuchte kann eine bestimmte Anzahl weiterer Leuchten mitsteuern. Die zusätzlichen Leuchten empfangen das Signal der Hauptleuchte und benötigen daher keinen eigenen Sensor.

The integrated motion sensor of the main light can also control a certain number of additional lights. The additional lights receive the signal from the main light and therefore do not require their own sensor.

max. 8 pcs.

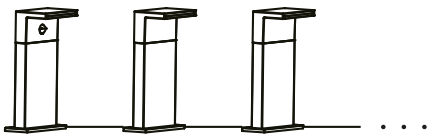

CONNECTOR BOX

Der Anschlusskasten dieser Leuchten ist so ausgelegt, dass er zwei Anschlussleitungen aufnehmen kann. Dadurch lassen sich mehrere Leuchten problemlos in Reihe schalten.

The connection box of these lights is designed to accommodate two connection cables. This means that several lights can be easily connected in series.

max. 8 pcs.

Robuste Außenleuchten für Küstenregionen · Robust outdoor lights for coastal regions

Leuchten, mit dem Label ☒Seaside Ready☒, sind die perfekte Wahl für alle, die in maritimen Umgebungen leben. Dank hochwertiger Materialien und spezieller Oberflächenbeschichtungen trotzen sie selbst den härtesten Bedingungen an der Küste. Salzhaltige Luft und wechselnde Witterung können diesen Leuchten nichts anhaben.

Luminaires with the "Seaside Ready" label are the perfect choice for anyone who lives in a maritime environment. Thanks to high-quality materials and special surface coatings, they can withstand even the harshest conditions on the coast. Salty air and changing weather conditions are no match for these lights.

10 Jahre Garantie auf Korrosionsschutz bei Leuchten aus pulverbeschichtetem Aluminium. Ausgenommen sind Ausbleichen der Oberfläche sowie technische Komponenten.

10-year guarantee on corrosion protection for luminaires made of powder-coated aluminum. This excludes fading of the surface and technical components.

15 Jahre Garantie auf Korrosionsschutz bei Leuchten aus feuerverzinktem Edelstahl. Ausgenommen sind Ausbleichen der Oberfläche sowie technische Komponenten.

15-year guarantee on corrosion protection for luminaires made of hot-dip galvanized stainless steel. This excludes fading of the surface and technical components.

(GB)
Hybrid solar lights charge up with solar energy during the day and provide bright light at night. On cloudy days, when the sun is not shining and the solar charge is running low, the light automatically connects to the power grid to continue working at full capacity.

(NL)
Hybride solarlampen laden overdag op met zonne-energie en geven 's nachts helder licht. Op bewolkte dagen, als de zon niet schijnt en de zonnelading laag is, maakt de lamp automatisch verbinding met het elektriciteitsnet om op volle capaciteit te blijven werken.

(IT)
Le lampade solari ibride si ricaricano con l'energia solare durante il giorno e forniscono una luce brillante di notte. Nelle giornate nuvolose, quando il sole non splende e la carica solare è bassa, la lampada si collega automaticamente alla rete elettrica per continuare a funzionare a pieno regime.

(FI)
Hybridiaurinkolamput latautuvat aurinkoenergialla päivällä ja antavat loistavaa valoa yöllä. Pilvisenä päivänä, kun aurinko ei paista ja aurinkolataus on vähissä, lamppu kytkeytyy automaattisesti verkkoon jatkaakseen toimintaansa täydellä teholla.

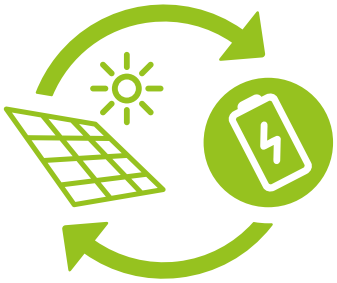

(D)
Hybride Solarleuchten tanken tagsüber Sonnenenergie und sorgen nachts für helles Licht. An trüben Tagen, wenn die Sonne mal nicht scheint und die Solarladung zur Neige geht, verbindet sich die Leuchte automatisch mit dem Stromnetz, um mit voller Kapazität weiterzuarbeiten.

(FR)
Les lampes solaires hybrides se rechargent à l'énergie solaire pendant la journée et fournissent une lumière brillante la nuit. Par temps nuageux, lorsque le soleil ne brille pas et que la charge solaire est faible, la lampe se connecte automatiquement au réseau électrique pour continuer à fonctionner à pleine capacité.

(ES)
Las lámparas solares híbridas se recargan con energía solar durante el día y proporcionan una luz brillante por la noche. En los días nublados, cuando el sol no brilla y la carga solar es baja, la lámpara se conecta automáticamente a la red para seguir funcionando a pleno rendimiento.

(RO)
Lămpile solare hibride se reîncarcă cu energie solară în timpul zilei și oferă lumină strălucitoare noaptea. În zilele înnorate, când soarele nu strălucește și încărcarea solară este scăzută, lampa se conectează automat la rețea pentru a continua să funcționeze la capacitate maximă.

(PL)
Hybrydowe lampy solarne ładują się energią słoneczną w ciągu dnia i zapewniają doskonałe światło w nocy. W pochmurne dni, gdy słońce nie świeci, a poziom naładowania jest niski, lampa automatycznie łączy się z siecią, aby kontynuować pracę z pełną wydajnością.

(GB)
If the solar charge is low, the light can be easily recharged in just a few hours using the built-in USB function. This guarantees constant light output and maximum efficiency.

(NL)
Als de zonne-energie bijna leeg is, kan de lamp eenvoudig in een paar uur worden opgeladen met de ingebouwde USB-functie. Dit garandeert een constante lichtopbrengst en maximale efficiëntie.

(IT)
Se la carica solare è bassa, la luce può essere facilmente ricaricata in poche ore utilizzando la funzione USB integrata. Questo garantisce un'emissione luminosa costante e la massima efficienza.

(FI)
Jos aurinkolataus on vähissä, valo voidaan ladata helposti muutamassa tunnissa sisäänrakennetun USB-toiminnon avulla. Tämä takaa tasaisen valotehon ja maksimaalisen tehokkuuden.

(D)
Bei schwacher Solarladung lässt sich die Leuchte in wenigen Stunden über die eingebaute USB-Funktion mühelos aufladen. Das garantiert konstante Lichtleistung und maximale Effizienz.

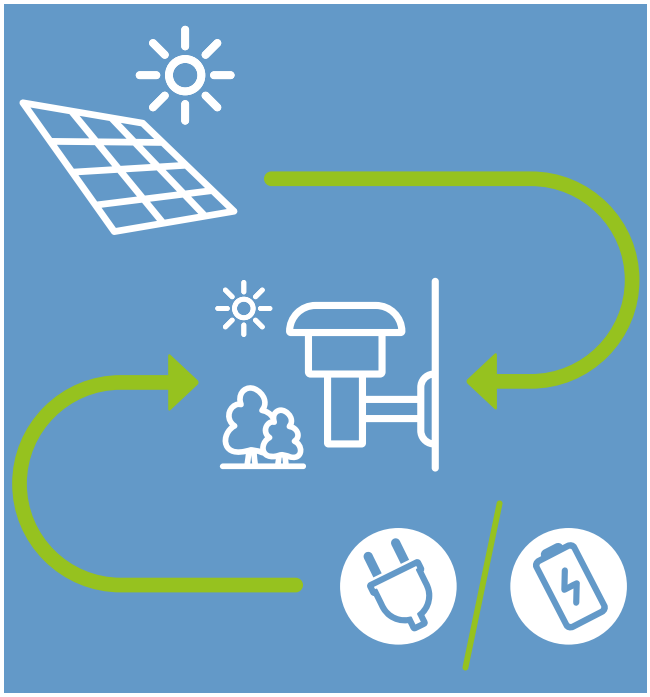

(FR)
Si la charge solaire est faible, la lampe peut être facilement rechargée en quelques heures grâce à la fonction USB intégrée. Cela garantit une luminosité constante et une efficacité maximale.

(ES)
Si la carga solar es baja, la luz puede recargarse fácilmente en unas pocas horas mediante la función USB incorporada. Esto garantiza una potencia luminosa constante y la máxima eficiencia.

(RO)
Dacă încărcarea solară este scăzută, lumina poate fi ușor reîncărcată în doar câteva ore utilizând funcția USB încorporată. Acest lucru garantează o ieșire constantă a luminii și o eficiență maximă.

(PL)
Jeśli poziom naładowania baterii słonecznej jest niski, lampę można łatwo naładować w ciągu zaledwie kilku godzin za pomocą wbudowanej funkcji USB. Gwarantuje to stały strumień światła i maksymalną wydajność.

- ✓ 100% Stromkostenersparnis während des Solar-Betriebs
- ✓ Sehr hohe Leuchtkraft bis zu 1.000 Lumen
- ✓ Hocheffiziente Solarmodule
- ✓ Bewegungsmelder und Dämmerungssensoren sorgen für eine effiziente Nutzung des Solarstroms und mehr Sicherheit

- ✓ 100% electricity cost savings during solar operation
- ✓ Very high luminosity up to 1,000 lumens
- ✓ Highly efficient solar modules
- ✓ Motion detectors and twilight sensors ensure efficient use of solar power and more safety

Mit der Kraft der Sonne nachhaltig beleuchten

Sustainable lighting with the power of the sun

Solarleuchten nutzen ausschließlich die Kraft der Sonne um Licht zu erzeugen. Dabei sind sie extrem umweltschonend, sparsam und gleichermaßen praktisch, da sie weder Steckdosen noch einen Anschluss ans Stromnetz benötigen. In Kombination mit moderner LED-Technik bieten Solarleuchten ideales Licht für Haus und Garten.

Les lampes solaires utilisent exclusivement l'énergie du soleil pour générer de la lumière. En même temps, elles sont extrêmement écologiques, économiques et tout aussi pratiques, car elles ne nécessitent ni prise de courant ni raccordement au réseau électrique.
En combinaison avec la technologie LED moderne, les lampes solaires fournissent une lumière idéale pour la maison et le jardin.

Solar lamps exclusively use the power of the sun to generate light. At the same time they are extremely environmentally friendly and economical as well as practical, as they need neither sockets nor a connection to the mains supply. In combination with modern LED technology, solar lamps provide an ideal light for home and garden.

Zonnelampen maken uitsluitend gebruik van de kracht van de zon om licht te produceren. Daarbij zijn ze extreem milieuvriendelijk, zuinig en in gelijke mate praktisch, omdat ze noch een stopcontact noch een aansluiting op het stroomnet nodig hebben.
In combinatie met moderne ledtechniek bieden z onnelampen ideaal licht voor huis en tuin.

LED-Solarleuchten

LED solar lights

Las luces solares usan exclusivamente la energía del sol para generar luz. Al mismo tiempo, son extremadamente ecológicas, económicas e igualmente prácticas, y no necesitan ni enchufes ni conexión a la corriente.
En combinación con las modernas técnicas LED, las luces solares ofrecen una luz ideal para la casa y el jardín.

Aurinkovalaisimet käyttävät auringon energiaa valon tuottamiseen. Samalla ne ovat erittäin ympäristöystävällisiä, taloudellisia ja myös käytännöllisiä, koska ne eivät vaadi pistorasioita tai liitäntää sähköverkkoon. Yhdessä modernin LED-tekniikan kanssa aurinkovalaisimet tarjoavat ihanteellisen valaistuksen kotiin ja puutarhaan.

Le lampade solari utilizzano esclusivamente la potenza del sole per generare luce. Allo stesso tempo sono estremamente rispettose dell☒ambiente, economiche e pratiche in quanto non richiedono né presa di corrente, né un collegamento alla rete elettrica. In combinazione con la moderna tecnologia LED, le lampade solari forniscono una luce ideale per la casa e il giardino.

Lampy solarne wykorzystują moc słońca do generowania światła. Są one przy tym niezwykle przyjazne dla środowiska, ekonomiczne i jednocześnie praktyczne, ponieważ nie wymagają gniazd ani podłączenia do sieci elektrycznej. W połączeniu z nowoczesną technologią LED lampy solarne zapewniają idealne oświetlenie domu i ogrodu.

Lămpile solare se folosesc în exclusivitate de energia soarelui pentru a genera lumină. În acest context sunt extrem de ecologice, economice și practice în același timp, deoarece nu necesită nici prize și nici conectarea la o rețea electrică. În combinație cu tehnologia modernă LED, lămpile solare oferă lumina ideală pentru casă și grădină.

Gracias a la batería integrada, las luces transportables son flexibles y aportan puntos de atención excitantes al jardín, al balcón o a la terraza - ¡y sin ningún tipo de cables! Se consigue el ambiente adecuado con otras características especiales adicionales como el modificador de color RGB o la función Bluetooth para escuchar música sin cables. La iluminación perfecta para pasar la tarde con la familia y los amigos.

Dank integriertem Akku sind die transportablen Leuchten flexibel und setzen spannende Akzente im Garten, auf dem Balkon oder der Terrasse - ganz ohne Kabel! Für die richtige Stimmung sorgen zusätzliche Highlights wie RGB-Farbwechsler oder Bluetooth-Funktion für kabelloses Musik hören. Die perfekte Beleuchtung für gemeinsame Abendstunden mit Familie und Freunden.

Grazie alla batteria ricaricabile integrata, le lampade portatili sono flessibili e creano accenti emozionanti in giardino, sul balcone o sulla terrazza - senza cavi! Ulteriori punti di forza come il cambiacolori RGB o la funzione Bluetooth per l'ascolto di musica senza fili assicurano il giusto feeling. L'illuminazione perfetta per le ore serali da trascorrere insieme alla famiglia e agli amici.

Integrated rechargable batteries lets you flexibly use these easily transportable lights to accent your garden, balcony or terrace in an exciting way, all without any cables! Additional highlights like an RGB colour wheels and Bluetooth for streaming music wirelessly provide just the right mood. The perfect lighting for spending evening hours with family and friends.

Datorită acumulatorului integrat, lămpile transportabile sunt flexibile și oferă un aspect atrăgător în grădină, pe balcon sau pe terasă - fără cablu! Atmosfera potrivită este asigurtă de jocurile suplimentare de lumină cum ar fi schimbarea culorilor RGB sau funcția Bluetooth pentru a asculta muzică fără cablu. Iluminarea perfectă pentru orele de seară cu familia și prietenii.

Grâce à la batterie rechargeable intégrée, les lampes transportables sont flexibles et mettent des accents excitants dans le jardin, sur le balcon ou la terrasse sans aucun câble ! D autres fonctions marquantes garantissent une bonne ambiance, telles que le changeur de couleurs RVB ou la fonction Bluetooth pour l écoute de musique sans fil. L éclairage parfait pour les soirées partagées avec la famille et les amis.

Integroidun ladattavan akun ansiosta siirrettävät valaisimet ovat joustavia ja muodostavat jännittäviä korostuksia puutarhaan, parvekkeelle tai terassille ilman kaapeleita! Lisäkorostukset, kuten RGB-värinvaihtajat tai Bluetooth-toiminto langattomaan musiikin kuuntelun, takaavat oikean ilmapiirin. Täydellinen valaistus illanviettoon yhdessä perheen ja ystävien kanssa.

Dankzij de geïntegreerde accu zijn de verplaatsbare lampen flexibel en zorgen voor mooie accenten in de tuin, op het balkon of op het terras, en dat helemaal zonder kabel! Voor de juiste stemming zorgen extra hoogtepunten zoals de RGB-kleurenwisselaar of Bluetooth-functie om draadloos muziek te beluisteren. De perfecte verlichting om 's avonds aangenaam te vertoeven met vrienden en familie.

Dzięki akumulatorowi przenośne lampy są elastyczne w ustawieniu i tworzą ekscytujące akcenty w ogrodzie, na balkonie lub tarasie - bez żadnych kabli! Odpowieni nastrój zapewnią dodatkowe urządzenia, takie jak zmieniacze kolorów RGB lub funkcja Bluetooth do bezprzewodowego słuchania muzyki. Doskonałe oświetlenie wspólnych wieczorów z rodziną i przyjaciółmi.

Bewegungssensor und Orientierungslicht.
Die Leuchte verfügt über ein Orientierungslicht, das sich bei Dämmerung oder Dunkelheit automatisch einschaltet.
Wird eine Bewegung erfasst, schaltet die Leuchte von Orientierungslicht auf volle Lichtleistung

Motion sensor and orientation light .
The luminaire has an orientation light that switches on automatically at dusk or in the dark.
If movement is detected, the luminaire switches from orientation light to full light output.

Capteur de mouvement et lumière d'orientation.
Le luminaire est muni d'une lumière d'orientation qui s'allume automatiquement dès qu'il fait sombre ou dans le noir.
Si un mouvement est détecté, le luminaire passe de la lumière d'orientation à la lumière maximale.

Bewegingssensor en oriëntatielicht.
Het verlichtingstoestel heeft een oriëntatielicht dat automatisch inschakelt bij schemerdonker of in het donker.
Wanneer beweging waargenomen wordt, schakelt het verlichtingstoestel over van oriëntatielicht naar volledig lichtvermogen.

Lámpara con sensor de movimiento y de orientación.
La lámpara dispone de una luz de orientación que se enciende automáticamente al anochecer o en la oscuridad.
Si se detecta movimiento, la lámpara pasa de luz de orientación a plena potencia luminosa.

Sensore di movimento e luce di orientamento.
La lampada è dotata di una luce di orientamento che si accende automaticamente al crepuscolo o al buio.
Se viene rilevato un movimento, la lampada passa dalla luce di orientamento alla piena emissione di luce.

Senzor de mișcare și lumină de orientare.
Corpul de iluminat are o lumină de orientare care se pornește automat în amurg sau în întuneric.
Dacă este detectată mișcare, corpul de iluminat trece de la lumina de orientare la iluminat deplin.

Liiketunnistin ja suuntavalo.
Valaisimessa on suuntavalo, joka syttyy automaattisesti illansarastuksessa tai pimeän laskiessa.
Jos liikettä havaitaan, valaisin siirtyy suuntavalosta täyteen valaistustehoon.

Czujnik ruchu i światło orientacyjne.
Oprawa posiada światło orientacyjne, które włącza się automatycznie o zmierzchu lub w ciemności.
W przypadku wykrycia ruchu oprawa przełącza się ze światła orientacyjnego na pełną moc świetlną.

Bewegungssensor Multi-Control
Der integrierte Bewegungssensor der Hauptleuchte kann eine bestimmte Anzahl weiterer Leuchten mitsteuern. Die zusätzlichen Leuchten empfangen das Signal der Hauptleuchte und benötigen daher keinen eigenen Sensor.

Multi-Control motion sensor
The integrated motion sensor of the main light can also control a certain number of additional lights. The additional lights receive the signal from the main light and therefore do not require their own sensor.

Capteur de mouvement Multi-Control
Le capteur de mouvement intégré du luminaire principal peut également commander un certain nombre de luminaires supplémentaires. Les luminaires supplémentaires reçoivent le signal du luminaire principal et n'ont donc pas besoin de leur ropre capteur.

Multi-Control bewegingssensor
De geïntegreerde bewegingssensor van de hoofdlamp kan ook een bepaald aantal extra lampen aansturen. De extra lampen ontvangen het signaal van de hoofdlamp en hebben dus geen eigen sensor nodig.

Sensor de movimiento Multi-Control
El sensor de movimiento integrado de la luz principal también puede controlar un cierto número de luces adicionales. Las luces adicionales reciben la señal de la luz principal y, por tanto, no necesitan su propio sensor.

Sensore di movimento Multi-Control
Il sensore di movimento integrato nella luce principale può controllare anche un certo numero di luci aggiuntive. Le luci supplementari ricevono il segnale dalla luce principale e non necessitano quindi di un proprio sensore.

Senzor de mișcare Multi-Control
Senzorul de mișcare integrat al luminii principale poate controla, de asemenea, un anumit număr de lumini suplimentare. Luminile suplimentare primesc semnalul de la lumina principală și, prin urmare, nu au nevoie de un senzor propriu.

Multi-Control liiketunnistin
Päävalon integroitu liiketunnistin voi ohjata myös tiettyä määrää lisävaloja. Lisävalot saavat signaalin päävalosta, joten ne eivät tarvitse omaa tunnistinta.

Czujnik ruchu Multi-Control
Zintegrowany czujnik ruchu głównego światła może również sterować pewną liczbą dodatkowych świateł. Dodatkowe światła odbierają sygnał z głównego światła i dlatego nie wymagają własnego czujnika.

Geeignet für Küstengebiete 10 Jahre
10 Jahre Garantie auf Korrosionsschutz bei Leuchten aus pulverbeschichtetem Aluminium. Ausgenommen sind Ausbleichen der Oberfläche sowie technische Komponenten.

Seaside ready (10 years)
10-year guarantee on corrosion protection for luminaires made of powder-coated aluminum. This excludes fading of the surface and technical components.

Seaside ready (10 ans)
10 ans de garantie contre la corrosion pour les luminaires en aluminium thermolaqué. Sont exclus la décoloration de la surface ainsi que les composants techniques.

Klaar voor de kust (10 jaar)
10 jaar garantie op corrosiebescherming voor armaturen gemaakt van gepoedercoat aluminium. Dit sluit verbleking van het oppervlak en technische onderdelen uit.

Seaside ready (10 años)
10 años de garantía de protección contra la corrosión para luminarias de aluminio con recubrimiento de polvo. Esto excluye la decoloración de la superficie y los componentes técnicos.

Seaside ready (10 anni)
Garanzia di 10 anni sulla protezione dalla corrosione per gli apparecchi di illuminazione in alluminio verniciato a polvere. Questo esclude lo sbiadimento della superficie e dei componenti tecnici.

Seaside ready (10 ani)
Garanție de 10 ani privind protecția împotriva coroziunii pentru corpurile de iluminat din aluminiu acoperit cu pulbere. Aceasta exclude decolorarea suprafeței și a componentelor tehnice.

Seaside ready (10 vuotta)
10 vuoden korroosiosuojaustakuu jauhemaalatusta alumiinista valmistetuille valaisimille. Tämä ei koske pinnan ja teknisten osien haalistumista.

Seaside ready (10 lat)
10-letnia gwarancja na ochronę antykorozyjną opraw oświetleniowych wykonanych z aluminium malowanego proszkowo. Nie obejmuje to blaknięcia powierzchni i elementów technicznych.

Inkl. Verbinder für Reihenschaltung
Der Anschlusskasten dieser Leuchten ist so ausgelegt, dass er zwei Anschlussleitungen aufnehmen kann. Dadurch lassen sich mehrere Leuchten problemlos in Reihe schalten.

Connector for series connection included
The connection box of these lights is designed to accommodate two connection cables. This means that several lights can be easily connected in series.

Connecteur pour connexion en série inclus
Le boîtier de raccordement de ces luminaires est conçu de manière à pouvoir accueillir deux câbles de raccordement. Il est ainsi possible de brancher plusieurs luminaires en série sans problème.

Connector voor serieaansluiting inbegrepen
De aansluitdoos van deze lampen is zo ontworpen dat er twee aansluitkabels in passen. Dit betekent dat meerdere lampen eenvoudig in serie kunnen worden aangesloten.

Conector para conexión en serie incluido
La caja de conexiones de estas luces está diseñada para alojar dos cables de conexión. Esto permite conectar fácilmente varias luces en serie.

Connettore per il collegamento in serie incluso
La scatola di connessione di queste luci è progettata per ospitare due cavi di collegamento. In questo modo è possibile collegare facilmente più luci in serie.

Conector pentru conectarea în serie inclus
Cutia de conexiuni a acestor lumini este proiectată pentru a găzdui două cabluri de conexiune. Acest lucru înseamnă că mai multe lumini pot fi conectate cu ușurință în serie.

Mukana liitin sarjakytkentää varten
Näiden valaisimien liitäntäkotelo on suunniteltu siten, että siihen mahtuu kaksi liitäntäkaapelia. Tämä tarkoittaa, että useita valoja voidaan helposti kytkeä sarjaan.

W zestawie złącze do połączenia szeregowego
Skrzynka połączeniowa tych świateł została zaprojektowana tak, aby pomieścić dwa kable połączeniowe. Oznacza to, że kilka lamp można łatwo połączyć szeregowo.

Geeignet für Küstengebiete 15 Jahre
15 Jahre Garantie auf Korrosionsschutz bei Leuchten aus feuerverzinktem Edelstahl. Ausgenommen sind Ausbleichen der Oberfläche sowie technische Komponenten.

Seaside ready (15 years)
15-year guarantee on corrosion protection for luminaires made of hot-dip galvanized stainless steel. This excludes fading of the surface and technical components.

Seaside ready (15 ans)
15 ans de garantie contre la corrosion pour les luminaires en acier inoxydable galvanisé à chaud. Sont exclus la décoloration de la surface ainsi que les composants techniques.

Klaar voor de kust (15 jaar)
15 jaar garantie op corrosiebescherming voor armaturen gemaakt van thermisch verzinkt roestvrij staal. Dit sluit verbleking van het oppervlak en technische onderdelen uit.

Seaside ready (15 años)
15 años de garantía de protección contra la corrosión para luminarias de acero inoxidable galvanizado en caliente. Esto excluye la decoloración de la superficie y los componentes écnicos.

Seaside ready (15 anni)
Garanzia di 15 anni sulla protezione dalla corrosione per gli apparecchi di illuminazione in acciaio inox zincato a caldo. Questo esclude lo sbiadimento della superficie e dei componenti tecnici.

Seaside ready (15 ani)
Garanție de 15 ani privind protecția împotriva coroziunii pentru corpurile de iluminat din oțel inoxidabil galvanizat la cald. Aceasta exclude decolorarea suprafeței și a componentelor tehnice.

Seaside ready (15 vuotta)
15 vuoden korroosiosuojatakuu kuumasinkitystä ruostumattomasta teräksestä valmistetuille valaisimille. Tämä ei koske pinnan ja teknisten osien haalistumista.

Seaside ready (15 lat)
15-letnia gwarancja na ochronę antykorozyjną opraw oświetleniowych wykonanych ze stali nierdzewnej ocynkowanej ogniowo. Nie obejmuje to blaknięcia powierzchni i elementów technicznych.

(D) **Schutzklasse 1**

Leuchten für den Anschluss an den netzseitigen Schutzleiter. Das Symbol ist an der Anschlussstelle angebracht.

(GB) **Protection grade I:**

Lamps for connection to network safety conductors. The symbol is placed at the connection port.

(FR) **Degré de protection I:**

Les lampes qui ont une connexion avec la prise de terre. Les lampes qui ont une connexion avec la prise de terre.

(NL) **Beschermklasse I:**

Lampen voor aansluiting op de netzijdige veiligheidsaarddraad.
Het symbool is op het aansluitpunt aangebracht.

(ES) **Protección tipo I:**

Lámparas para conectar en redes de conductores seguros. El símbolo está indicado en el conector.

(IT) **Classe di protezione I:**

Apparecchi con parti metalliche costantemente collegate al circuito di terra. Il simbolo è riportato sul punto di collegamento.

(RO) **Protectie grad I:**

Lampile care au conectare cu priza de pamant. Simbolul este plasat la punctul de conectare.

(FI) **Suojausluokka I:**

Valaisimet, jotka liitetään verkon turvamaadoitukseen. Symboli on merkitty liitäntäkohtaan.

(PL) **Klasa ochrony I:**

Oprawy przystosowane do podłączenia przewodu ochronnego. Oznakowanie znajduje się w miejscu podłączenia.

(D) **Schutzklasse 2**

Leuchten für den Betrieb mit Schutzkleinspannung.

(GB) **Protection grade II:**

Protected low voltage lamps.

(FR) **Degré de protection II:**

Les lampes protégées à faible voltage.

(NL) **Beschermklasse II:**

Lampen voor het gebruik met veiligheidslaagspanning.

(ES) **Protección tipo II:**

Lámparas de bajo voltaje con protección.

(IT) **Classe di protezione II:**

Apparecchi alimentati con tensione di sicurezza inferiore ai 50 V.

(RO) **Protectie grad II:**

Lampi protejate la tensiune joasa.

(FI) **Suojausluokka II:**

Valaisimet, joita käytetään suojapienjännitteellä.

(PL) **Klasa ochrony II:**

Oprawy przeznaczone do zasilania z sieci o niskim napięciu bezpiecznym.

(D) **Schutzklasse 3**

Leuchten mit einer zusätzlichen oder verstärkten Isolierung. Sie haben keinen Schutzleiteranschluss.

(GB) **Protection grade III:**

Lamps with additional or reinforced insulation. There is no connection for the safety conductor.

(FR) **Degré de protection III:**

Les lampes ayant une isolation supplémentaire ou renforcée. Il n'y a pas de connexion pour le conducteur de protection.

(NL) **Beschermklasse III:**

Lampen met een extra of versterkte isolatie.
Ze hebben geen veiligheidsaarddraadaansluiting.

(ES) **Protección tipo III:**

Lámparas con aislamiento adicional o reforzado. No tiene conexión con el conductor de seguridad.

(IT) **Classe di protezione III:**

Apparecchi con parti in tensione isolate fra loro e verso l'esterno con un doppio isolamento e senza dispositivi di messa a terra.

(RO) **Protectie grad III:**

Lampi care au o isolatie suplimentara sau ranforsata. Nu exista o conexiune pentru conductorul de siguranta.

(FI) **Suojausluokka III:**

Valaisimet, joissa on lisäeristys tai vahvistettu eristys. Niissä ei ole turvamaadoitusliitäntää.

(PL) **Klasa ochrony III:**

Oprawy przystosowane do podłączenia przewodu ochronnego. Oznakowanie znajduje się w miejscu podłączenia.
